

# Volunteer Mentor Role Description

## BACKGROUND

Youth unemployment is a global issue and the inner north of Melbourne is not immune from this growing trend. Significant long term research and investment by the European Commission continue to highlight that entrepreneurship and entrepreneurial skills are important for young people in the 21<sup>st</sup> century. Therefore, the Youth Enterprise Hub has evolved from the commitment of INYET – Inner Northern Youth Employment Taskforce - to address youth unemployment in the inner northern region of Melbourne.

## INITIATIVE OVERVIEW

In 2019 and early 2020, the Youth Enterprise Hub with local innovators and teachers co-designed *the New Economy Enterprise Curriculum* for VCAL students in Year 11 at the Intermediate Level. This systemic response enables teachers, local councils, innovators and young people to research, create and develop social and environmental innovations for their local community.

Teachers will be delivering this unique and exciting course again in 2022 – the first of its kind. It is a course that requires the students to explore who they are, to understand local issues and to develop environmentally responsible and socially inclusive services and products that will contribute to the regeneration of their local community.
